

# Valor Mobile

The Mobile component of Valor IMS serves as an extension of your desktop. Valor Mobile provides CAD and RMS functionality in a wireless laptop computer environment. Using existing mobile data networks (either private or commercial), any properly equipped laptop computer becomes simply another full-featured workstation accessing CAD for Mobile Dispatch, performing Remote Inquiries, Messaging, and opening RMS for Mobile Field Reporting.

Valor Mobile also works on tablets and smartphones (Windows, iOS, or Android devices) enabling individuals to perform many CAD functions. Using the bidirectional communications of Valor Mobile, smartphone and tablet users can also view events, report status changes, take and send photos, view SOP's, and close or re-open events.

## Select Features

- ✓ The system operates in a cross-platform computing environment.
- ✓ The system is able to function without commercial power.
- ✓ The system is touch screen enabled.
- ✓ The system has day and night modes.
- ✓ Field officer can update unit status themselves (dispatched, enroute, on scene, etc.).
- ✓ Field officer can complete event reports.
- ✓ Field officer can create electronic citations.
- ✓ Field officer can enter free form notes about calls.
- ✓ Field officer can add unlimited vehicle data as part of the call for service.
- ✓ Field officer can add unlimited person data as part of the call for service.
- ✓ Field officer can generate a report number and attach it to the call for service.
- ✓ The system provides the same functionality to field units that CAD and RMS provide to dispatchers, such as
  - Interfaces with mapping.
  - Displays all active CAD events.
  - Displays event units.
  - Displays available units (Police, Fire, EMS, Sheriff).
  - Allows field officer to initiate "Officer Initiated" and "Traffic Stop" calls for service.
  - Displays prior CAD events.
  - Displays Wants / Warrants / BOLO.
  - Allows access to master name, address, vehicle, and business databases.
  - Allows field officer to complete LEADS/ NCIC inquiries.
